

The optomap[®] Retinal Exam is fast, easy and comfortable and offers a permanent record to compare and track potential eye diseases. The image provides an in depth view of nearly the entire retina and is an educational tool for your doctor to discuss the health and wellness of your eyes.

Retinal problems such as retinal holes, retinal detachments and diabetic retinopathy can now be seen without dilation for most patients.

EARLY DETECTION IS CRUCIAL!

Advantages of the optomap[®] Retinal Exam

1. Retinal image becomes a permanent part of the patient's medical record.
2. A complete thorough view of the entire retina is seen quickly and easily.
3. No blurred vision and no light sensitivity for the patient because dilation is usually unnecessary.
4. No wasted time for the patient waiting to dilate unless the doctor deems necessary.

The cost is only \$35.00 (it is not covered by insurance.)
