

NOT ALL OMEGA-3s ARE CREATED EQUAL.

PRN's De 3 Omega Benefits® products are our practice's preferred nutritional supplement to help promote healthy tear function for patients with occasional eye dryness.*

- » The ultra-purified, re-esterified triglyceride form (rTG) allows for easy absorption by your body, to reach optimal nutritional levels in 90 days.*¹
- » Other omega-3 products are sold in a synthetic, ethyl ester form that is less useful to the body, more difficult to absorb and can leave a fishy odor or aftertaste.¹
- » It could take up to 40 capsules of other brands or five cans of tuna per day to equal the same benefits found in just three capsules of De 3 Omega Benefits.^{®2}
- » Every batch of De 3 Omega Benefits[®] is tested by an outside third-party to ensure quality and purity standards.
